SUMMARY

Motivated Web Developer with an extensive knowledge of web development, design, and coding, as well as experience in a wide range of programming languages, frameworks, and tools. Proven success in developing and deploying applications, websites, and web services. Highly organized and detail-oriented, with a knack for finding creative solutions to challenging problems.

PROFESSIONAL EXPERIENCE

- Freelance Front-End Developer(MERN)| Remote****oct 2024 – Present**
 - Built apps with MongoDB, Express, React, and Node.js.
 - Delivered RESTful APIs, real-time features, and responsive UIs.
 - Deployed on AWS/Docker; reduced client costs by 40%.
- Audit Intern, AF RAF VENTURES****Jun 2023 - Aug 2024**
 - Assisted financial audits for 10+ clients, testing transactions and drafting reports.
 - Automated Excel tasks, saving 5+ hours weekly; documented internal controls.
 - Researched regulatory compliance updates and supported client meetings.

PROJECTS

- Fully Functional Notes App | notes-app-x2.onrender.com**
 - Developed a secure, real-time notes application with user authentication (JWT) and CRUD operations.
 - Implemented rich-text editing, note categorization, and search functionality for seamless user experience.
 - Utilized MongoDB for scalable data storage and React for a dynamic, responsive frontend with state management (Redux/Context API).
 - Deployed the backend on Render and frontend on Vercel, ensuring high availability and performance.
- VOULT Fashion (MERN E-Commerce) | vount-mern-app-x2.onrender.com**
 - React Fashion Storefront: Built a responsive e-commerce UI with dynamic product displays, category filtering, and smooth cart interactions using React and Tailwind CSS.
 - Interactive Product Gallery: Implemented image zoom, color/size selectors, and lazy loading for optimal mobile/desktop viewing.
 - State-Driven Cart System: Developed real-time cart updates and quantity adjustments using React Context API for seamless shopping.
 - Mock Backend Integration: Connected to a Node.js/Express API serving product data from MongoDB with optimized queries.

STACK/SKILLS

Mongo DB	Tailwind css	Gsap
Express js	HTML	API testing
React	Javascript	
Node js	API/API Integration	

EDUCATION

- Aix Software engineering****March 2022 - Nov 2022**
 - Online software engineering program
- B.Eng Mechatronics Engineering****April 2023 - Present**
 - Relevant coursework: Structural Design, Project Management, Embedded Systems, control systems and robotics
